

Brief Report

SASA Programme conducted on 20-06-2026 by the SASA coordinator Dr. Ramesh Yadav, Lec.in Hindi in college ampous. In this programme all teaching/nonteaching and students ware participated. Agenda of the programme are Improved cleanliness in campuses and public places. Promotion of waste segregation into wet and dry waste at the source. Reduction in the use of single-use plastics and encouragement of eco-friendly alternatives. Active participation of students, staff, and the local community in cleanliness drives. Better waste collection and scientific waste management practices. Development of responsible civic behaviour and environmental consciousness. Cleaner surroundings leading to improved public health and reduced pollution. Creation of green, litter-free, and sustainable communities. Strengthened teamwork, volunteerism, and social responsibility among participants. These outcomes align with the Andhra Pradesh government's goals of improving waste collection, segregation, scientific waste processing, litter-free communities, and broader public participation in cleanliness
